

ASPIRE

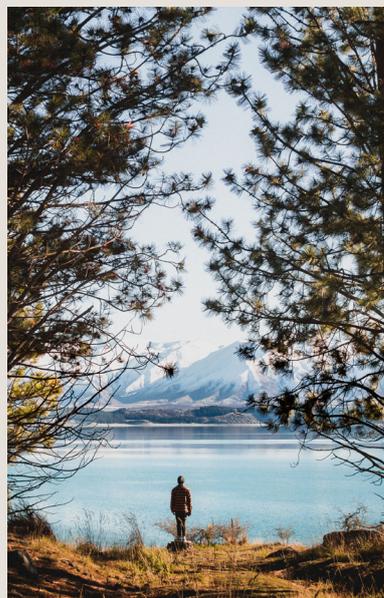

OHAU

The Aspire range of European oak engineered timber has been inspired by the natural beauty and colours of Tititea and Mt Aspiring National Park, and crafted for the conditions of New Zealand.

Aspire Ohau is a stunning light neutral oak flooring in a rustic wide board.

The light neutral blends with both modern and country interiors, and complement the natural colours of the region. This timber has a special finish designed to look like raw oak, like the raw nature of Ohau in both winter snow and summer tussock land.

Designed for the demands of New Zealand conditions. 18/4mm Engineered European Oak with a hard lacquer matt finish, with brushing to bring out the grain of the timber, in a rustic grade with 220 wide and full length 2.2m boards.

TYPE	Engineered Multi-Layered European Oak
DIMENSIONS	220mm W x 18mm H x 2.2m L
PACK SIZE	2.42m ² /pack
WEAR LAYER	4mm European Oak
STATUS	Pre-finished
GRADE	Rustic
FINISH	UV Matte Lacquer
TEXTURE	Medium Brush
JOINTS	T&G Profile
